

We are changing formats to allow more information for you, we hope this page will help you better understand some new numbers that you may not be familiar with. The HD50k DNA test are a great tool in helping with your selection; however, the numbering system is different than we all are used to.

Calving ease
**** - All heifers and cows
*** - Large Framed hfrs/cows
** - All cows
* - Large cows

Bull's registration number

This row of EPD numbers come from the HD50k DNA sample it is based on the animal's rank in the angus herd
1-Best ----- 100- Least desirable

This row is the corresponding EPD from the HD50k
If the animal is registered, these numbers will match Angus.org
If the animal is commercial, their numbers come from the Angus.org non-parent bulls chart

Dam's ratios will give a comparison of the dam with her contemporaries. BW ratios may include this years calf, while the NR represents a comparison of weaning and will not have current data for the current calf crop.

Lot #21 is not currently for sale. He was a late spring calf that has a great genetic background (Confidence, War Party, Payweight, and Capitalist) and a great EPD profile. However, if you have bull trouble this summer, he will be old enough in June to take over for an injured bull. Calving ease and carcass traits run deep in his pedigree. Feel free to contact us later this spring if you have a need for a bull, and we will get him tested.
