

We have changed formats to allow more information for you, we hope this page will help you better understand some new numbers that you may not be familiar with. The HD50k DNA test are a great tool in helping with your selection; however, the numbering system is different than we all are used to.

Calving ease
**** - All heifers and cows
*** - Large Framed hfrs/cows
** - All cows
* - Large cows

Bull's registration number

Actual performance numbers to date

+14	-1.4	+43	+114	+29	+31	

This row of EPD numbers come from the HD50k DNA sample it is based on the animal's rank in the angus herd  
1-Best ----- 100- Least desirable

This row is the corresponding EPD from the HD50k  
If the animal is registered, these numbers will match Angus.org  
If the animal is commercial, their numbers come from the Angus.org non-parent bulls chart

Dam's production numbers will tell how many calves she has had, as well as birthweight and 205 day weight averages. All BW's include this seasons weights, but 205's may be short due to the calves on the ground not yet being of age.
